

Gender Pay Gap

2021/22

Providing an update on the gender pay gap across the Charity in 2021-22

About Brunelcare

Established in 1941, Brunelcare is a Bristol based charity providing high quality housing, care and support for later living in the South West.

Today, across Bristol, South Gloucestershire and Somerset, Brunelcare works to support over 2,000 people to remain as independent as possible, for as long as possible.

Care is provided in people's own homes, in specialist care homes and our three reablement facilities.

Housing is provided by 1,150 properties, across 33 sites, three extra care housing sites and a retirement village.

To deliver all of its vital services Brunelcare employs a dedicated team of 1,200 people.

The extensive range of our services means that people can stay with us however their needs may change.

We are also widely recognised for our expertise and excellence in caring for people living with dementia and for supporting their families.

What is a gender pay gap?

Since April 2017 all companies with 250 or more employees have been required to publish their gender pay gap. A gender pay gap is the difference between the gross hourly earnings for both men and women regardless of the roles that they have. It is very different to equal pay, which

is about making sure men and women are paid the same in roles of equal value.

This report shows the average pay gap in Brunelcare between men and women, expressed as both a mean and a median average.

The numbers

The total number of employees that form the basis of this report is 1016.

Of the employees involved, 83.93% are female and 16.07% are male, this is effectively unchanged since the previous published results.

All roles within Brunelcare are graded, this means that each position has a defined salary range based on the job content. This is consistently applied without reference to gender.

Our average mean pay gap is 17.48%; this is higher than the previous year by 4.33% and indicates that the number of males holding higher paid roles overall has increased slightly.

Our average median pay gap is 7.82% which is 3.03% higher than the previous year however it remains below the national figure of 9.71% in 2022, previous year and over 10% better than the national figure of 15.4% in 2021.

The figures are shown within the graph below:

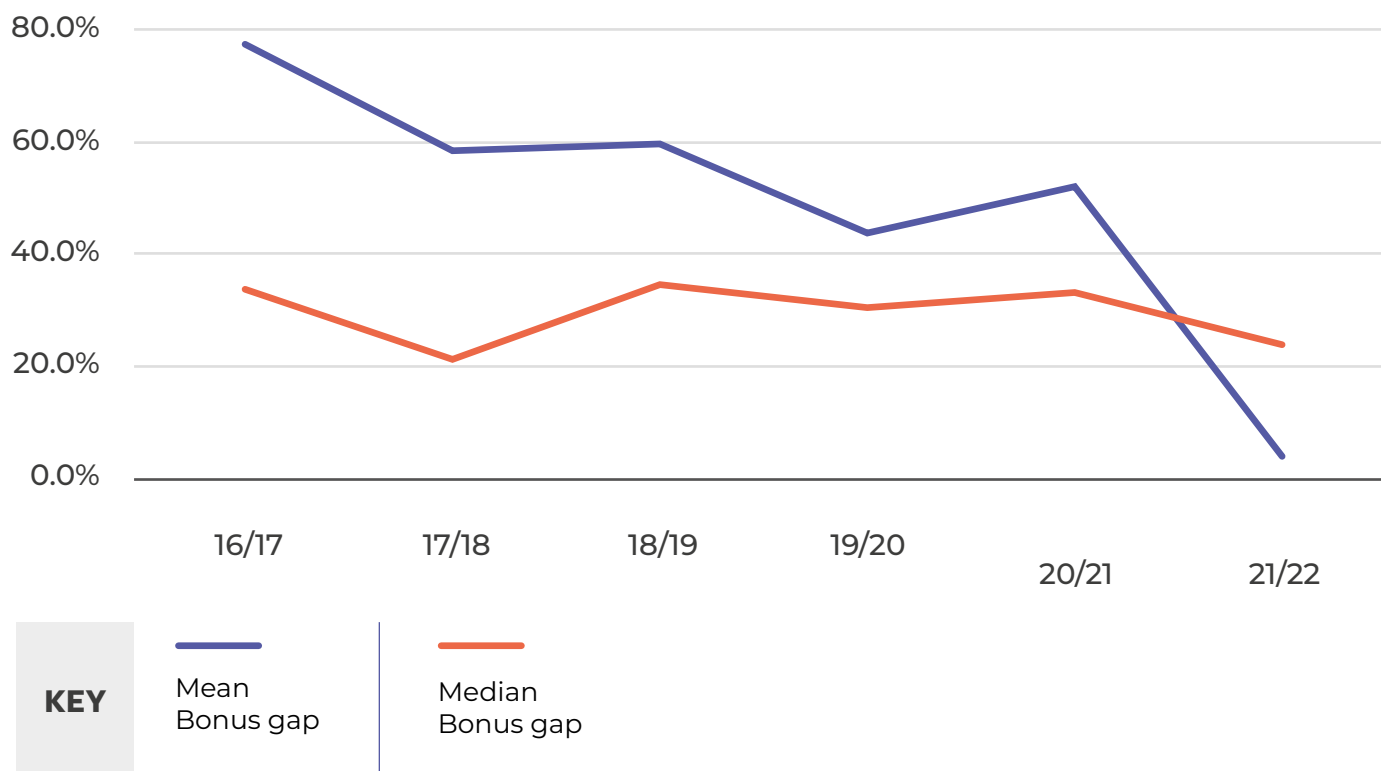

The following comparison shows the allocation by gender across four pay ranges, it can be noted that the percentage of males within the two lower bands have reduced slightly, this explains the pay gap increase:

	2021/22 - diff' year on year			
	Lower Quartile	Lower Middle Quartile	Upper Middle Quartile	Upper Quartile
Women	1.0%	0.3%	-0.5%	0.9%
Men	-1.4%	-0.7%	0.5%	-0.9%

We also publish our mean and median bonus gaps annually, this is not the total bonus paid but rather the average value of bonuses paid to each gender. It can be noted that the mean bonus gap has fallen to 2.15% for the year up to March 2022.

Mean Gender bonus gap and Median Gender bonus gap

The percentage of men and women receiving bonus in 2019/20

KEY

Men receiving a bonus

Woman receiving a bonus

The split in genders across four separate quartiles shows the proportion of each quarter:

Proportion of men and women in each Quartile Band	Lower Quartile	Lower Middle Quartile	Upper Middle Quartile	Upper Quartile
Women	85.8%	90.2%	85.4%	73.6%
Men	13.8%	9.5%	14.6%	26.4%

Brunelcare aims to treat everyone fairly at work, across all levels and locations. This includes making sure everyone has the same opportunities for recognition, reward and career development. Because of our pay grading system, we know that we provide men and women with equal pay for the roles they hold.

We are committed to ensuring that leadership positions are available to the widest pool of talent regardless of gender. We are proud that our leadership team has an excellent gender balance; of our six executives, four are female including our Chief Executive.

We are proud that out of the 254 highest paid employees across Brunelcare, 73.6% are female.

Brunelcare is committed to delivering equality of opportunity regardless of gender and has a pay and grading structure to support this. We remain determined to ensure that our gender pay gap reflects the reality of our organisation and can be explained in full.

We believe that we are successfully delivering equality both in terms of equal pay and also in rewarding roles of equal value.

The full suite of data is provided below:

Brunelcare	16/17	17/18	18/19	19/20	20/21	21/22
Mean Gender pay gap	18.7%	13.3%	14.34%	12.83%	13.15%	17.48%
Median Gender pay gap	7.3%	5.3%	7.25%	6.40%	4.79%	7.82%
UK Workforce Median pay gap	18.20%	18.40%	17.80%	17.30%	15.40%	8.30%

Brunelcare	16/17	17/18	18/19	19/20	20/21	21/22
